Operation Street Smart is designed to educate parents, teachers, social workers, community partners – anyone who has a connection with children – about current drug trends, terminology, and paraphernalia. The goal is to arm parents and teachers with the information necessary to recognize the influences of the drug culture on their children, familiarize them with the many different drugs to which our children may be exposed, and share the experience and knowledge of undercover narcotics officers so they are better prepared to help children make the right choices.

***Operation Street Smart has received the FBI Director's Award for Community Leadership and the Project Know Award.***

The agenda will include information about Alcohol, Marijuana, Synthetic Marijuana (K-2, Spice), Salvia, Divinorum, Kratom, DXM, Prescription and Over the Counter Medication (including liquid cough suppressants), Heroin, Methamphetamines, Cocaine and Crack Cocaine, XTC, Mushrooms, Khat, Bath Salts, Huffing, PCP, and LSD.
