## Acceptable Use Policy for Students Grades 3-12

Frontier Local School District recognizes the value of computers and other electronic resources to improve student learning and enhance the administration and operation of its schools. To this end, Frontier Local School District Board of Education encourages the responsible use of computers; computer networks, including the Internet; and other electronic resources in support of the mission and goals of Frontier Local School District and its schools.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to control. Therefore, the Board of Education adopts this policy governing the voluntary use of electronic resources and the Internet in order to provide guidance to individuals and groups obtaining access to these resources on district owned equipment or through district affiliated organizations.

### **Frontier Local School District Rights and Responsibilities**

It is the policy of Frontier Local School District to maintain an environment that promotes ethical and responsible conduct in all online network activities by staff and students. Within this general policy, Frontier Local School District recognizes its legal and ethical obligation to protect the wellbeing of students in its charge. To this end, the school district retains the following rights and recognizes the following obligations:

1. To log network use and to monitor network folder utilization by users, and assume no responsibility or liability for files deleted due to usage violations.
2. To remove a user account on the network when deemed appropriate.
3. To monitor the use of online activities. This may include real-time monitoring of network activity and/or maintaining a log of Internet activity for later review.
